

Notice to Tenants
of
Fire Sprinkler System Testing

Please be advised that on the date and time indicated below, Certified Fire Protection will be on site to perform a fire sprinkler system inspection on the buildings indicated below. This is being done in conjunction with your management company.

During this inspection, alarms will be sounding from time to time, and we will need access to each room in your unit, to see components of the fire sprinkler system. If you have a pet, please put them in a bedroom or bathroom.

These inspections are required by the local fire marshal, fire codes, and national standards. With your help, we can get the required inspection done with as little as possible discomfort to you.

We would like to thank you in advance for your help and understanding.

Thank you again from your management, maintenance staff, and Certified Fire Protection Staff.

Date of Inspection: _____ to _____

Time of Inspection: _____ to _____
